PROFILE

Computer Science undergraduate with strong fundamentals and hands-on experience through academic and personal projects. Qualified in JEE Advanced, demonstrating strong analytical and problem-solving abilities. Quick learner with a solid understanding of core computer science concepts, strong collaborative skills, and a desire to contribute effectively in professional software environments.

EDUCATION

B.Tech in Computer Science and Engineering

Amrita Vishwa Vidyapeetham, Coimbatore

Jun 2023 – Present

CGPA: 8.26

Senior Secondary (CBSE)

Sri Chaitanya Techno School, Neelambur

Jun 2021 – Apr 2023

XII: 90.6%

Secondary (CBSE)

Kathir Vidyaa Mandhir, Neelambur

2020 – 2021

X: 93.8%

PROJECTS

LexFix – Accessibility-First Language Learning Platform

🐙 GitHub

- Built a full-stack cloud-based language learning platform designed for neurodivergent learners with adaptive multi-modal learning (text, audio, visual).
- Developed an accessible and responsive UI focused on reducing cognitive load and improving user experience.
- Designed scalable backend architecture with REST APIs and role-based access control for learners, parents, and educators.
- Integrated real-time collaboration features and intelligent feedback for pronunciation and language learning.
- Implemented secure data handling and deployed the application on a cloud platform for production use.
- **Tech Stack:** Next.js, Node.js (Express), PostgreSQL, MongoDB, Hugging Face (wav2vec2), spaCy

Hall Booking Portal

🐙 GitHub

- Developed a full-stack booking system with real-time conflict detection and scheduling validation.
- Implemented secure authentication and role-based dashboards for Admin and Users.
- Designed RESTful APIs for booking, authentication, and notification handling.
- Built responsive UI components and admin dashboard for booking analytics.
- **Tech Stack:** HTML, CSS, JavaScript, React, Node.js, Express, MongoDB

Placement Preparation LMS

🐙 GitHub

- Designing a Learning Management System (LMS) focused on technical interview preparation for college placements
- Organizing important concepts and topics for technical rounds in a structured learning format
- Working on modular UI components with scope for future backend and content integration
- **Tech Stack:** Flutter, MongoDB

SKILLS

Web: HTML, CSS, React, Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Other: Flutter, Machine Learning

EXTRACURRICULAR ACTIVITIES & INTERESTS

- Interest in chess, with multiple tournament wins, including a district-level championship and a Sahodaya championship (2017)
- Interest in logical reasoning, Sudoku, and problem-solving puzzles
- Active participant on HackerRank for coding practice

LANGUAGES

Tamil (Native) — English (Proficient)
